Kiyono Nurseries

R. F. D. CRICHTON, ALA.

(15 miles north-west of Mobile, Ala. on Moffat Road)

Long Distance Telephone—Mobile, Ala. Juniper 7405

SHIPPING POINT, SEMMES, ALA.

PRICES IN THIS LIST CANCEL ALL PREVIOUS
QUOTATIONS, AND ARE SUBJECT TO CHANGE
WITHOUT NOTICE.

TERMS AND CONDITIONS OF SALE

Prices—5, 50 and 500 of same variety and size
at 10, 100 and 1000 rates respectively.

Car-load Orders — and if trucks are sent to
our nurseries for B&B plants when we do not have
to pack plants, we will be pleased to offer very at-
tractive prices on B&B plants.

Specimen Stock selected or marked by our cus-
tomers in the Nursery will be charged for according
to its value, and higher than listed prices.

Terms of Payment—Cash with order, from un-
known people or those who prefer to earn discount.
When cash with order, we offer discount of 3% and
boxing free, which means total saving of about 10%.

C. O. D. shipment will be considered as cash
order, only when deposit of 25% is sent with order.

For charge accounts, our terms are 60 days net,
boxing at cost. New accounts opened only upon re-
ceipt of trade references, allowing time for investi-
gation.

Transportation—Please state whether you want
your shipments by parcel post, express or freight.
When no instructions are given, we will use our
best judgment in selecting best method of ship-
ments. We make no charge for delivery to railroad
station, but our responsibility ceases when goods
are turned over to carrier and risk and cost of trans-
portation belong to purchaser.

Claim—If there is any mistake or any reason
to complain, please write immediately upon receipt
of goods and we will be pleased to adjust matter.

Condition of Sale—We accept all orders upon
condition that they shall be void should any injury
befall stock from causes over which we have no
control.

AZALEAS

Azaleas are without doubt the most beautiful flowering plants we have in the South. Their season of blooming is very long, beginning with Winter flowering *Vitata* Fortuni and extending into June when the pretty dwarf *Azalea Macrantha* is covered with its soft, orange-pink blossoms. All azaleas are profuse bloomers and in the Spring each plant is a solid mass of color.

Azaleas of all types are easily grown, if a few rules are followed. They require a good, well drained soil that has a slight acid reaction. The addition of leaf mould, peat and in very heavy, stiff soil a small quantity of sand is always beneficial. Leaf mould and peat help maintain an acid soil and a mulch of leaves is good to retain moisture and to furnish plant food for the next year. Azaleas are shallow rooted and an abundance of water in dry weather is necessary, especially with young plants. Watering among foliage with a hose is desirable as a strong spray holds thrip and red spider in check.

Partial shade is desirable in planting, but dense shade should be avoided. A lath house is well suited for growing plants on nursery. They should be fertilized sparingly; light application of cotton seed meal about three times a year, is one of the best treatments. It is to be remembered that plants that have a quantity of large sappy growth produce far less flowers and are much more likely to be killed by freezing weather than slower growing plants of the same variety.

Lining out size Azaleas offered here were rooted in last spring and planted in beds early in summer, giving plenty of space for full development of strong root system and bushy tops and far superior to 2½ inch potted plants, having roots enough to fill 3 inch pot which has twice the capacity of 2½ inch pot.

We have thousands of lining out size azaleas ready for immediate delivery, but since these small plants have much tender growth and are easily damaged by frost, we advise protecting them against the frost this winter. Extra expense of frost protection will be more than repaid by better growth you will gain by early planting, but those who are not prepared to protect them will do well to let us book orders and make delivery in Spring after all danger of frost is over, without any additional expense to our customers.

AZALEA INDICA

The Indica group which are fast growers with masses of large flowers are especially adapted for landscape planting all along the Gulf Coast up to Atlantic seaboard of North Carolina. Around Mobile, Charleston and some other sections, there are plants seventy to one hundred years old, with spread from twenty to thirty feet across, apparently without any special care, showing they are perfectly at home and easy to grow. Nurserymen in this entire section

4-6 and 6.8 inch Azaleas shown with 3-inch pot. Our small Azaleas of this Spring offering are better than those illustrated here.

have golden opportunity to give most lasting satisfaction to their customers and incidentally enrich themselves by planting extensive collection of this showy plant in their nurseries, because azaleas will sell themselves when your customers see them in full bloom. We are listing most of important varieties, eliminating weaker growers or inferior flowers when same color can be had in better varieties.

BRILLIANT—A good grower with small, dark green leaves. Deep watermelon color, being intermediate of Pride of Mobile and Pride of Dorking. Very good variety.

COCCINEA MAJOR—Brilliant orange-red of a little taller growth than Prince of Orange.

CRITERION—Compact grower, with color of strawberry ice cream, streaked with deeper pink and margin of white. Late bloomer and very attractive.

CROEMINA—Fast growing, light pink flowers of large size early in season.

DUC DE ROHAN—Compact grower, with pretty small leaves and profuse bloomer of beautiful salmon-pink flowers. One of best plants for pot culture.

ELEGANCE—Fast and rather upright grower, similar to Formosa with light colored pink flowers early in season.

FLAG OF TRUCE—Good size double white flowers have ruffled edge petals. Compact grower.

FORMOSA — Very fast grower with large dark leaves and large purplish pink flowers which have less purple than Phoenicia.

GEORGE FRANC—Early bloomer with extra large salmon pink flowers with deep red throat. Very showy flowers.

- GLORY OF SUNNYHILL**—Compact grower with shiny narrow leaves and one of the latest to bloom. Vivid orange-red color.
- INDICA ALBA**—Rather upright grower with dull colored hairy leaves. Pure white flowers in mid-season and very hardy.
- IVERYANA**—Similar to Criterion, except this variety has pink stripes on pure white instead of pink shade ground of Criterion.
- LADY EDITH**—Very similar to Criterion, blooming late, of almost identical flowers, but have more glossy leaves than Criterion.
- MME. DOMINIQUE**—One of largest size indica, similar in color to Criterion, but taller growth, but very compact and blooms almost as late as Macrantha and very hardy.
- ORCHID**—Upright grower, with light orchid colored flowers of medium size, very early.
- PHOENICIA**—Fast grower with medium size leaves with flowers of purplish-pink which is not often wanted with other colors, but very nice with white flowers and this variety will probably withstand more heat and sun than any others.
- PRIDE OF DORKING**—One of the deepest red of entire group. Blooms late in season and while not very hardy, yet one of the best kind.
- PRIDE OF MOBILE**—Fast grower with large leaves similar to Formosa but of lighter color. Some of largest and choicest azaleas in Mobile section are of this variety and were known formerly as "Watermelon Pink" but we gave the name of "Pride of Mobile" several years ago which was immediately adopted by all. Plants over 70 years old, standing over 15 feet high, smothered by countless beautiful pink flowers is a sight that cannot be equaled by any. Very hardy, fast grower, most brilliant color, mid-season profuse bloomer makes this one of outstandingly good and profitable variety for Nurserymen and Florists to handle.
- PRESIDENT CLAY**—Good grower with orange-red flowers in mid-season.
- PRINCE OF ORANGE** — Spreading grower with deep orange-red flowers a little after mid-season. Very nice kind.
- PRINCE OF WALES**—Bushy, compact grower with deep pink flowers. Rather late.
- SALMON** — Known locally as "Daphne Salmon." Very hardy mid-season bloomer with pleasing salmon colored medium size flowers. Very hardy, staying more dormant during winter months, an ideal variety for forcing in greenhouse.
- VIOLACEA RUBRA**—Beautiful shade of wine red color with dark green leaves.

VITATA FORTUNI — Fast, upright grower, with pale colored leaves. White and lavender variegated and light lavender flowers intermixed. Start blooming in fall and continue all winter and Spring.

WILLIAM BULL — Very hardy, upright grower, which will not grow compact when small, but after a few years, will form nice compact form. Very double orange-red flowers will last long time and one of the best.

Supply of blooming size Azaleas is far more limited than last year, all over the country, due to very strong demand of last Spring. We have only small supply of certain varieties and sizes and ask you to place your order early to avoid disappointment.

2-3 feet, with buds, B&B....	1.50	13.50	125.00

HARDY JAPANESE AZALEA

What we are listing as Hardy Japanese Azaleas and Kaempferi include probably larger varieties of best money making possibility to Nurserymen and Florists of Southern half of United States than any other group of plants of present day. All of them are evergreen except a few varieties which will lose leaves in New England states, and color range is large—white, pink, salmon, orange, red and variegated. Certain varieties bloom early, others late, each has its characteristic bloom of its own.

The whole country is sick and tired of evergreens and common flowering shrubs. They are wanting bright colors early in Spring and something different and what is better than this group of hardy evergreen azaleas? Most Nurserymen in this large section of the country do not know themselves what a big opportunity is waiting for them to stimulate our trade by offering this bright flowering plant to their customers.

Azaleas under this heading are not dwarf like Hinodegiri or Kurume, but fairly fast growers, reaching ultimate heights of ten to twelve feet and hardy in all parts of New Jersey and even farther North.

AMOENA—One of the hardiest, compact growers with small leaves and rather small size, rosy-purple hose-in-hose flowers. Can stand great deal of neglect.

AMOENA SUPERBA—Similar to above with the exception of dark purple flowers, shading darker toward center.

FLAME—Bright orange-red flowers early in season.

FUJIMOYO—Small size hairy leaves. Medium size beautiful shade of double lilac flowers.

- HARDY FIREFLY**--Compact growing, very hardy azalea, with good size single flower of most brilliant fiery red. One of very best.
- HINAMOYO**—Fast growing, upright branches are clothed with small size light colored leaves. Beautiful shade of soft pink flowers will hide the plant. Bloom early.
- HINODEGIRI** — See under heading of Kurume Azaleas.
- INDICA ALBA**—(See under heading Azalea Indica).
- INDICA ROSEA**—(Magnificia)—Fast grower, with large size hairy leaves. Large single white flowers are tinted with rose.
- KAEMPFERI**—This evergreen Azalea will lose its leaves in further North, where it can stand winter of Boston without any protection, and does splendidly in lower South, making large size plants. Large size, single red flowers borne profusely rather late in season.
- KIMNAZOI** — Compact grower with long narrow leaves. Deep red, five separate narrow petals are entirely different from any other Azalea.
- LILACINA**—(Akebono, meaning dawn) — Delicate shade of lilac shade orchid is the color of Eastern sky at dawn. Strong grower with large size leaves.
- MACRANTHA** — Compact grower with roundish leaves with single medium size pink flowers late in season. Very hardy.
- MACRANTHA, ORANGE RED**—Similar to above with narrow leaves and orange-red flowers. Very good.
- MACRANTHA DOUBLE FLOWERING** — One of the above type with double salmon-red flowers. Rather new.
- MACROSTEMON SALMONEANA** — Medium size Salmon-red flowers are produced late in season very freely.
- MAXWELLI**—Leaves and flowers are as large as most of Indica and carmine-red single flowers of large size are very attractive.
- YAYEGIRI**—Fast grower with shiny narrow leaves. Beautiful salmon-red hose-in-hose flowers in mid-season. Very young and profuse bloomer.
- YODOGAWA**—A semi-evergreen with narrow willow-like leaves and purplish-pink double flowers early in Spring.
- Prices of Hardy Japanese Azalea, Kaempferi hybrid, such as Cleopatra, Feodora, Carmen, Othello:

	Each	10	100
6-8 inch, bed grown90	7.00
8-10 inch, with buds, B&B....	.35	3.00	25.00
10-12 inch, with buds, B&B40	3.50	30.00
12-18 inch, with buds, B&B....	.60	5.50	50.00
18-24 inch, with buds, B&B90	8.00	75.00
2-3 feet, with buds, B&B....	1.50	13.50	125.00

KURUME AZALEAS

This group known botanically as *Azalea Obtusum Japonicum*, include varieties of more dwarfish growers and not quite as hardy as Hardy Japanese group, but all Kurume will stand winter of almost all sections of Southern states without any protection and much farther North with little protection.

The demand for Kurume Azalea as pot plants from Eastern and Northern Florists has been growing by leaps and bounds. When plants are received from us, all you have to do is to pot them in light peaty soil, keep in moderately warm houses, and spray with strong force of water daily to keep down red spiders and they will come into full bloom in

CORAL BELL—10-12 inch Size

about 60 days. They are very quick, profitable crop. We are now growing thousands of excellent Kurume for Florists use.

APPLE BLOSSOM—Hose-in-hose pink flowers are color of apple blossoms.

BRIDESMAID—Salmon-pink, large size flowers are borne in large clusters. Very good grower.

CARMINE PRINCE—Large size hose-in-hose carmine-red flowers are produced very freely. Medium height, compact.

CATTLEYA — Delicately lilac-tinted hose-in-hose petals are pointed at end and mauve-pink at the edges. Good grower.

CHERRY BLOSSOM—Delicate shade of pink melts into white toward center. Large size flowers.

CHRISTMAS CHEER—Compact grower with small shiny leaves. Deepest crimson flowers are small but very attractive, and one of best variety.

- CORAL BELL**—Compact grower with small round glossy leaves, have dainty bell-shaped pink flowers which are not large but very profuse bloomer and one of best favorites with florists.
- DAPHNE**—Very compact, slow grower, with delicate light lavender flowers fading white in center.
- DOUBLE MAUVE**—Compact grower with delicate mauve flowers fading to white in center. Hose-in-hose type and real nice for pot plants.
- HEXE (Firefly)**—Slow, compact grower with showy deep scarlet, hose-in-hose flowers. Small sizes only to offer this year.
- HINODEGIRI**—Slow, compact growers, but its fiery red flowers will literally smother the entire plant, even when they are very small, making one of the most desirable pot plants.
- HORTENSIA** — Good size, soft pink hose-in-hose flowers are produced in large trusses. Medium height.
- LAVENDER QUEEN**—Large size, single light lavender flowers with white stamens. Dark, large size leaves.
- MAUVE BEAUTY**—Delicate mauve shade flowers, literally cover entire plant. Compact, dwarf grower.
- ORANGE BEAUTY**—Compact grower, with orange-pink flowers of hose-in-hose type are produced in very large cluster.
- PEACH BLOW**—One of fastest growing Kurume with medium size single salmon-pink flowers of delicate peach flowers.
- PINK PEARL**—Large size, most beautiful salmon-rose color, is shaded lighter toward center, with prominent markings. Borne in large cluster.
- SALMON BEAUTY**—Large size, hose-in-hose salmon-pink flowers with light green foliage.
- SALMON QUEEN**—Large size, single flowers of salmon-pink are produced in great profusion in mid-season. One of most attractive.

SALMON QUEEN—6-8 inch Size

SNOW—Purest white, good size hose-in-hose flowers among beautiful glossy leaves. Liked by all.

SUNSTER — Medium size, single, dark rose-pink flowers are borne very heavy. Small, dark green leaves and medium height.

SWEET BRIER—Compact grower, with leaves similar to Peach Blow. Medium size, single pink flowers are very attractive. One of hardiest Kurume known.

VESUVIUS—Large size bright orange-red, single flower. Good grower, with dark green leaves.

VIVID—Hose-in-hose, large size flowers are deep vivid red, without any cast of purple, but similar to Hexe, which have purple tint. Small leaves and compact grower.

Prices of Kurume Azaleas:	Each	10	100
4-6 inch, bed grown.....		.90	7.00
6-8 inch, with buds, B&B....	.40	3.50	30.00
8-10 inch, with buds, B&B60	5.00	45.00
10-12 inch, with buds, B&B....	.75	6.50	55.00
12-18 inch, with buds, B&B....	1.00	9.00	80.00
18-24 inch, with buds, B&B....	1.75	15.00	125.00

Our 4-6 inch bed grown size are good only for growing on, and do not have any flower buds, and Spring shipment will be better.

POTTED AND BOXED CAMELLIAS

To meet with the ever increasing demands of Florists, we are offering this year, selected varieties of bushy Camellias in 6 and 7 inch pots which can be retailed as potted plants or used to furnish cut flowers. These plants are mostly 18-24 inch for dwarf kinds and 24-30 inch for taller growing kinds. All of them have more than half a dozen well developed flower buds; some have double that number.

Camellias with advanced flower buds should be kept in very cool house. Carnation and Cyclamen houses are suitable, with temperature of not much more than 50 degrees. Camellias are winter blooming plants and may shed off buds in very warm houses.

Our boxed Camellias are very bushy, field grown plants, lifted with ball of earth last year, and grown in cypress box for two years and well set with buds. The weight of our ten inch box is about 50 pounds and 12 inch box about 90 pounds.

Prices of potted Camellias:—

\$15.00; \$17.50 and \$20.00 per ten plants, depending upon size, kinds and number of buds.

Prices of Boxed Camellias:—

10-inch cypress box, (about 2-3 feet high), at \$3.00 and \$4.00 each, depending upon varieties and number of buds.

12 inch cypress box, (mostly 3-4 feet plants), at \$5.00 and \$6.00 each, depending upon varieties and number of buds.

CAMELLIA JAPONICA

Horticultural names of Camellia Japonicas are so badly confused that we are not still sure of many of them, but we have enough of kinds which are recognized by leading nurserymen by such names as we list, that we are offering these named Camellias under three classes.

We are fortunate possessor of Nouvelle Inconographae des Camellias, published in 1848-1860, with more than five hundred natural colored illustrations with names and we will follow their names as far as possible.

Many names, however, will have to be revised yet, and in order not to mislead you, we are illustrating several types of flowers and by referring to them, you can form better ideas of what we mean by "peony form", "very double", etc.

RARE CAMELLIAS

PURPLE EMPEROR

We are pleased to offer to our good customers some of most highly prized and rare Camellia Japonicas, in limited number in 8-10 inch and 10-15 inch sizes, which will be sold ONLY IN CONNECTION WITH OUR STANDARD SORTS. Book early before they are sold out. Ten of each variety is our limit to each customer, and no reduction in price, no matter how many total ordered. These plants are mostly single stem.

VICTOR EMMANUEL—Most highly prized Camellia of today. Very large, deep red peony form of late season. 10-15 inch—\$5.00 each.

ETHLINGTON WHITE—Semi-double white, tissue paper-like texture, of large size flowers. 8-10 inch—\$2.00; 10-15 inch—\$3.00 each.

MRS. WILLIAM THOMPSON—Large, semi-double white of great beauty. Recent importation from Europe. 8-10 inch—\$2.00; 10-15 inch—\$3.00 each.

Prices of following varieties are at 8-10 inch—\$1.50; 10-15 inch at \$2.00 each. With several kinds we can supply larger sizes than listed.

DEBUTANTE

DEBUTANTE (Sarah C. Hastie)—Delicate shade of solid pink, large peony form and very early.

FANNY BOLLIS—Very large single red flowers are blotched with white.

KUMASAKA—Large size peony form of deep pink, of late season.

LADY CLARE—Immense size single pink flower is probably largest of all Camellia.

MARCHIONESS of EXETER — Early blooming, large size pink flowers of peony form, is similar to Debutante, but a little deeper in color.

PURPLE EMPEROR (Mathotiana Rubra, Purple Dawn, etc.)—One of largest flowers of rose form, deep pink, but as the flower gets older, outer edge turns purple.

SNOWDRIFT—Beautiful form of large size, semi-double, pure white.

SUPRESSE NOBLISSIMA — Semi-double, white flowers are very light in texture and elegant.

APPLE BLOSSOM—Single, small pink flowers are not showy, but quite fragrant. 8-10 inch—\$1.00; 10-15 inch—\$1.25 each.

MARCHIONESS OF EXETER

CLASS A CAMELLIAS

ALBA PLENO—Snow white of very double, good size flower. Very early, but poor grower, and do not set buds when young.

CHANDLERI ELEGANCE—One of largest peony flowering Camellias, cherry-red, with white variegated. Some are thick peony flowers with 500 petals, but some flowers are loose peony form with yellow spemens. See illustration.

**CHANDLERI
ELEGANCE**

Peony Form

EMPRESS OF INDIA—Very late, dahlia-shape flowers have unusually pleasing salmon color which is not often found in any other Camellia.

ENRICO BETTONI — Very fast grower, making great deal of summer growth. Flower is clear, light pink, but form varies from semi-double to peony form on same bush, but always very large.

HERME—Very large, loose peony form of elegant shape. Pink and red variegated with white margin. Has faint scent. One of very best.

LADY HUME'S BLUSH—Very double and symmetrical petals are delicately blushed with flesh-color, which is much lighter than Pink Perfection. Because of extremely slow growth and difficulty in propagation, prices of this variety will be at double of our listed Class A Camellias.

MONARCH

MONARCH—Deep pink flower of enormous size, having many clusters of stamen and petals, inside of larger outer petals, making a single flower equal to a bouquet. Beautiful foliage and compact grower. Since this variety is very dwarf and spreading grower, prices of specimen plants will be at one grade higher than listed prices. For example, price of 18-24 inch Monarch will be at listed price of 24-30 inch.

OTOME—Similar to Pink Perfection, with much larger flowers with each end of petals fading to lighter shade of shell pink.

SEMI-DOUBLE

BLUSH

Light Semi-

Double

PINK PERFECTION—Very double, clear shell-pink, of dainty form, liked by many. Blooms very early, but continues for a long time. Starts blooming very young and heavy bloomer.

PROF. C. S. SARGENT—Very thick, peony form of solid crimson of medium size.

SEMI-DOUBLE BLUSH—Not sure of name, but from stock plant imported from France several years ago. Elegant shaped, light semi-double petals have identical color of Lady Hume's Blush, with beautiful yellow stamens; making one of noblest and simplest in form and coloring. See illustration.

SOPHIA—Habit of growth and color of flower are very much like Chandleri Elegance, but form of flower is more cup-shaped and center petals are less in number and larger. Set buds young and heavy bloomer.

Prices of Class A Camellias:		Each	10	100
3-5 inch, pot or from greenhouse benches	-----		\$ 1.50	\$12.00
6-8 inch, B&B or Pot	-----		3.00	25.00
8-12 inch, B&B or Pot	-----		4.00	35.00
12-18 inch, branched, B&B	---		5.50	50.00
18-24 inch, branched, but without buds, B&B	-----		10.00	85.00
2-3 feet, branched, but without buds, B&B	-----		12.50	100.00
18-24 inch. specimen, B&B	---	2.25	20.00	
24-30 inch, specimen, B&B	---	3.50	30.00	
30-36 inch, specimen, B&B	---	4.50	40.00	
3-4 feet, specimen, B&B	-----	6.50	60.00	
4-5 feet, specimen, B&B	-----	8.50	80.00	

CLASS B CAMELLIAS

This class includes some of very good kinds, often as good as our A Class, but because of a little more plentiful supply, we are listing these excellent varieties at much lower prices.

MRS. ABBY WILDER—Peony shaped white flowers, medium to large, with tiny sprashes of pink. Compact and good grower. (See illustration).

MRS.
ABBY
WILDER

AUSTILL PINK — Semi-double pink of medium size, stamen often intermixed with smaller petals in center. Compact, but fast grower.

BEALII ROSEA—Very double flowers of Pink Perfection shape, of about same size, but color is a little deeper pink. Fast and very compact grower with rather small leaves. Plants of 3 feet high usually have spread of same dimension.

BROWN'S RED—Probably darkest red Camellia of semi-double form, with pointed dark green leaves.

CANDIDISSIMA — Star-shaped, very double pure white flowers are not large, but very profuse bloomer. Slow, compact grower. Season late.

COMTE DE GOMER—Very double creamy petals are dotted with numerous pink spots. Early season, compact, but slow grower.

ELIZABETH
Very Double

COUNTESS OF ORKNEY—Light pink, with stripes of red, very double flowers of rather early season. compact, but slow grower. Profuse bloomer while very small.

DUC DE BRETAGNE—Red with blotch of semi-double. Large, heavy leaves.

DUKE DE ORLEANS — Creamy white, with tiny specks of pink. Good size peony form, stamens intermixed with inner petals.

ELISABETH (Tutonia)—Very double pure white petals are crinkled at end and once in a great while, pure pink flowers of same form will appear. Leaves are very dark, thick green and strong grower. One of best. (See illustration).

**GLOIRE de
NANTES**

Center Petals
Twisted

GLOIRE DE NANTES (Leana Superba) -- Large size semi-double cerise, center petals often twisting. Very large dark green leaves, with bold large flowers make this one of the most attractive on bush. See illustration, (Page 13).

JARVIS RED
Semi-Double

JARVIS RED—Deep blood-red, semi-double flowers with golden stamen makes this flower very attractive among dark green foliage. One of most popular kind. (See illustration).

KELLINTONIA — Orange-red with stripes or blotches of white, open peony type. Always bloom heavy and extra good foliage.

**MATHOTIANA
ALBA**

MADAM STREKALOFF—Peony formed, light pink petals are streaked with small stripes of crimson. Stiff upright grower.

MATHOTIANA ALBA—Good size very double white with large light colored leaves. Rather late in season. (See illustration).

NAPOLEON D'ITALIE—Medium size, double rose-red, with very dark, almost blackish stripes. Compact excellent grower.

NOBILISSIMA—Early white petals intermixed with stamens. Good grower and bloomer.

PRINCE EUGENE NAPOLEON (Pope Pius IX)—Good size, very double scarlet flowers of early mid-season. Good compact grower.

REV. JOHN BENNETT—Orange-red, semi-double flower of good size, often stamens twisted with petal. Rather small, roundish dark green foliage and very compact, but good grower.

**TANNER-
WILLIAMS
RED**

Semi-Double

ROSE EMRY—Crimson peony form of medium size, early in season.

SINGLE RED No. 1—Large size, single red with extra large foliage.

TANNER WILLIAMS RED—Not sure of name, but we are naming after place where original plant was found. Semi-double, orange-red, with prominent stamens. Very compact grower and profuse bloomer. (See illustration).

T. K. VARIEGATED—Semi-double, light pink, with darker pink margin, somewhat like Criterion Azalea. Elegant form and coloring, with large cluster of yellow stamens. Small leaves, compact, but fast grower.

THERESA MOSSINE—Very narrow, pleasing shell-pink petals are very double. Small size leaves and very compact grower.

TRI-COLOR — Semi-double flower of almost pure white to red and intermediate colors on same bush. Dark green glossy leaves.

Prices on Class B Camellias:—			
	Each	10	100
3-5 inch, pot or from greenhouse benches		\$ 1.20	\$10.00
6-8 inch, B&B or Pot		2.50	20.00

4-5 feet, specimen, B&B..... 7.00		65.00	
5-6 feet, specimen, B&B..... 9.00		80.00	

CLASS C CAMELLIAS

This includes more common double flowering kinds such as **Lady Campbell**, which are double red of good size; **Sarah Frost**, double rose-red and very good compact grower (see illustration); **Lily**, double white of medium size and fast grower; **Sangdon**, semi-double shell pink and fast grower; several variegated kinds. As a class, most of varieties are very fast growers and hardier than more choice sorts.

**SARAH
FROST**

Double Rose

We also offer at this class price, several of very good double flowering kinds which names are not known to us, so we offer them by color of Red, Pink, Variegated and White.

Prices of Class C Camellias:

	Each	10	100
3-5 inch, pot or from green-house benches, -----		\$ 1.00	\$ 8.00

4-5 feet, specimen, B&B-----	6.00	55.00	

ORIENTAL MAGNOLIAS

Some of the most beautiful flowering trees in this world belong to this group of deciduous Magnolias. Most of them are hardy in good part of entire United States, and planting of these beautiful trees should be encouraged by nurserymen especially when they can be had at such reasonable prices as we list below.

MAGNOLIA LILIFLORA (M. Obovata) — Tulip-shaped, large size purplish-pink flowers before leaves appear. Many stems from ground and make large size bush.

ILEX CORNUTA	MAGNOLIA	MAGNOLIA
FEMINA	STELLATA	SOULANGEANA
2½ inch Pot	3 inch Pot	3 inch Pot

Prices of Magnolia Liliflora and M. Soulangeana Nigra:

3-inch pot -----	.20	1.50	12.00
2-3 feet, bushy, B&B -----	1.25	10.00	
3-4 feet, bushy, B&B -----	1.50	12.50	
4-5 feet, bushy, B&B -----	1.75	15.00	

MAGNOLIA RUSTICA RUBRA—New introduction from England. Large, cup-shaped flowers are dark reddish-purple and great new addition.

Similar to Lennei, with handsome seed pods of more than six inches long. (See illustration.)

	Each	10	100
3-inch pot40	3.00	25.00

MAGNOLIA RUSTICA RUBRA

MAGNOLIA SOULANGEANA — Small size tree, with large, nine petal pinkish flowers before leaves come out in Spring, and one of the most beautiful flowering trees. Our 3-inch pot plants were potted in Summer of 1936 and are mostly 12 inches or more in size and entirely different plants from cuttings potted in Summer of 1937.

MAGNOLIA SOULANGEANA ALBA SUPERBA— Similar to above, with almost white flower of larger size, with rounder leaves and more up-right grower.

Prices of Magnolia Soulangeana and Alba Superba:

3-inch pot, C. T.	\$.30	\$ 2.50	\$ 17.50
18-24 inch, B&B	1.00	9.00	80.00
2-3 feet, B&B	1.25	10.00	90.00
3-4 feet, B&B	1.75	15.00	125.00
4-5 feet, B&B	2.25	20.00	175.00
5-7 feet, B&B	2.50	22.50	200.00

MAGNOLIA SOULANGEANA LENNEI — Leaves are much larger than Soulangeana, having cup-shaped, larger size, bold flowers, which open later than other Soulangeana, deep reddish-purple outside, and white inside. Very choice.

3-inch pot, C. T.	\$.35	\$ 3.00	\$25.00
18-24 inch, B&B	1.50	12.50	
2-3 feet, B&B	2.00	17.50	

MAGNOLIA SOULANGEANA NIGRA — Bloom later than Soulangeana and darker in color. Prices are same as Liliflora.

**MAGNOLIA
SOULANGEANA**

MAGNOLIA STELLATA (Star Magnolia)--A dwarf grower, with numerous delicate pinkish-white water-lily-like flowers early in Spring. One of the most beautiful of all. Our 3-inch pot plants were about 12 inches high in Summer of 1936, being potted in July, 1935. (See illustration).

	Each	10	100
3-inch pot30	2.50	20.00
12-18 inch, C. T.30	2.50	20.00
18-24 inch, bushy, B&B.....	1.75	15.00	
2-3 feet, bushy, B&B.....	2.25	20.00	

MAGNOLIA VEITCHII.—Hybrid of Magnolia campbelli and M. denudata. Strong upright grower, with much larger leaves than M. denudata. Lovely blush pink flowers are almost twice the size of Soulangeana. Very rare but valuable.

Price of 5 inch and 6 inch potted plants in 18-24 inch size at \$2.50 each.

MAGNOLIA STELLATA

BROAD-LEAVED EVERGREENS

Legend: — S—Seedling, C—Cutting, T—Transplanted, B&B—Balled and burlapped.

We have many varieties not listed here and will solicit your inquiries.

ABELIA GRANDIFLORA

	Each	10	100
12-18 inch, C.		1.25	10.00
18-24 inch, bushy		1.50	12.00
2-3 feet, bushy		2.00	17.50

We can ball last two grades of specially selected plants at 15c extra each.

AUCUBA JAPONICA

Beautiful dark green leaves on green branches reaching ultimate height of ten feet. Hardy South of Philadelphia but in lower South, they should be planted in shade where they will thrive in almost any degree of shade.

6-8 inch, S. T.	1.00	8.00
12-18 inch, S. T.	2.00	15.00

AZALEAS (See pages 3-9)

BARBERRY ATROCARPA

One of best evergreen barberry in lower South, with about one inch long spiny leaves. Compact grower.

6-8 inch, C. T.60	5.00
8-12 inch, C. T.75	6.00
12-18 inch, C. T.	1.00	8.00
12-18 inch, B&B\$.60	5.00
18-24 inch, B&B75	6.00

BARBERIS THUMBERGI ATROPURPUREA (Red leaved Japanese Barberry)

Leaves are dark bronze red, making excellent contrast with other green shrubs.

6-8 inch, C. T.60	5.00
8-12 inch, C. T.75	6.00
12-18 inch, C. T.	1.00	8.00
12-18 inch, B&B60	5.00

BUXUS JAPONICA

Fairly fast growing box with light colored roundish leaves. Do well in full sun.

BUXUS SEMPERVIRENS

Slow growing, compact box with deep green pointed leaves. There are several strains of this variety, but we offer the most compact growing kind.

Prices of Both Buxus:—

4-6 inch, C. T.65	5.00
6-8 inch, C. T.80	6.00
8-10 inch, C. T.	1.00	8.00
10-12 inch, C. T.	1.25	10.00
12-18 inch, B&B85	7.50
18-24 inch, B&B	1.00	9.00
2-3 feet, B&B	1.50	12.50

CAMELLIA SASANQUA

Similar to Camellia Japonica, but looser and faster grower. Very profuse bloomers and start opening in latter part of September and will continue till November, when hardly any other flowers can be had. We originated a few outstanding kinds, from thousands of seedlings, and offer this year, kinds we could not supply before. We offer these newer kinds under number, up to 3-4 feet size.

MINE-NO-YUKI—Double white, similar to Carnation flower.

ROSEA—Large, single deep pink, upright grower.

No. 1—Large single shell pink, fast grower.

No. 2—Single variegated, pink and white.

No. 4—Single blush of good size.

No. 5—Pink and white variegated, but deeper than No. 2.

	Each	10	100
6-8 inch, C. T.		1.50	12.50
8-12 inch, C. T.		1.75	15.00
12-18 inch, C. T.		2.00	17.50
2-3 feet, B&B	1.50	12.50	
3-4 feet, B&B	2.50	22.50	
4-5 feet, B&B	3.50	30.00	
5-6 feet, B&B	6.00	50.00	

CAMELLIA SASANQUA (Seedlings)

Seedling Sasanqua are usually of single white flowers, but often with pink and red, which will bloom very profusely in October and November, when there are so few other flowers. Fast and free grower and will make excellent hedge and also under-stock to graft more valuable Camellia.

4-6 inch, seedlings60	5.00
6-8 inch, S. T.80	6.00
8-12 inch, S. T.		1.00	8.00
6-8 feet, B&B	3.00	25.00	

CALLISTEMON (Bottle Brush)

12-18 inch, 3-inch pot	1.25	10.00
------------------------------	------	-------

CAMELLIA THEA (Tea Plant)

White, sweet-scented flowers in late Fall. Commercial tea is made out of these leaves.

2-3 feet, B&B75	6.00
---------------------	-----	------

CLEYARA JAPONICA

An excellent compact growing medium sized evergreen with thick glossy leaves which turn red before falling. Creamy white flowers in late Spring. Our plants are cutting grown from selected specimens of exceptional merit.

8-12 inch, C. T.	1.00	8.00
12-18 inch, C. T.	1.25	10.00
2-3 feet, B&B	1.25	10.00
3-4 feet, B&B	1.75	15.00

COTONEASTER FRANCHETTI

One of best cotoneaster in lower South, being compact, free grower, with deep orange berries.

6-8 inch, S.75	6.00
8-12 inch, S.	1.00	8.00
18-24 inch, B&B75	6.00
2-3 feet, B&B	1.00	8.50
3-4 feet, B&B	1.25	10.00

COTONEASTER PANOSA

Similar to above, with silvery colored leaves.

Prices are same as Franchetti.

ELEAGNUS FRUITLANDI

Fast growing Eleagnus with large green leaves.

	Each	10	100
6-8 inch, C. T.80	7.00
8-12 inch, C. T.		1.00	9.00
2-3 feet, B&B	1.00	8.50	
3-4 feet, B&B	1.25	10.00	

ELAEAGNUS PUNGEN

Transplant easily, doing well in either sun or shade.

6-8 inch, C. T.75	6.00
8-12 inch, C. T.		1.00	8.00
2-3 feet, B&B90	7.50	
3-4 feet, B&B	1.25	10.00	

ELAEAGNUS PUNGEN AUREA-VARIEGATA

Highly colored yellow variegation of these leaves will not fade in full sun, but hold color all year round.

6-8 inch, C. T.		1.00	8.00
8-12 inch, C. T.		1.25	10.00
18-24 inch, B&B	1.00	8.50	

ERIOBOTRYA JAPONICA (Loquat)

Hardy, small size evergreen tree, with large leaves which are coated with thick, tiny gray colored hair underneath. Cluster of fragrant white flowers followed by yellow delicious fruit of about plum size.

6-8 inch, S.		1.00	8.00
8-12 inch, S.		1.25	10.00
12-18 inch, S.		1.50	12.00
2-3 feet, B&B	1.25	10.00	
3-4 feet, B&B	1.75	15.00	
4-5 feet, B&B	2.50	20.00	

EURYA JAPONICA

Slow compact growing shrub, clothed thickly with dark green glossy small leaves of highly ornamental value. Those who are seeking newer evergreen will do well to try some.

6-8 inch, C. T.75	6.00
8-12 inch, C. T.		1.00	8.00
12-18 inch, C. T.		1.25	10.00
2-3 feet, B&B	1.25	10.00	
3-4 feet, B&B	1.50	12.50	

EUONYMUS CARRIERI

Very satisfactory, trouble free, ground cover plants with pretty evergreen leaves.

6-8 inch, C. T.75	6.00
8-12 inch, C. T.90	8.00

EUONYMUS VEGETUS (Bigleaf Wintercreeper)

Very hardy creeper with dark green leaves, doing well in lower South.

8-12 inch, C. T.		1.00	8.00
-----------------------	--	------	------

FEIJOA SELLOWIANA (Pineapple Guava)

Compact growing shrub with light green leaves of silvery color underneath. Pretty purplish flowers in late Spring. Stand about zero weather.

6-8 inch, S. T.		1.00	8.00
8-12 inch, S. T.		1.25	10.00
12-18 inch, S. T.		1.50	12.50
2-3 feet, B&B	1.00	7.50	
3-4 feet, B&B	1.25	10.00	

GARDENIA FLORIDA (Cape Jasmine)

We offer excellent value in this popular flower plant. Our B&B plants are all with flower buds.

	Each	10	100
6-8 inch, C. T.60	5.00
8-12 inch, C. T.85	7.00
12-18 inch, C. T.		1.00	9.00
18-24 inch, B&B50	4.00	
2-3 feet, B&B75	6.00	
3-4 feet, B&B	1.00	7.50	

GARDENIA HADLEY

Large flowering winter forcing Gardenia of recent introduction. Highly prized as cut flowers and command much higher price than G. Veitchii.

2½ inch pots	1.50	12.00
3 inch pots	2.00	17.50

GARDENIA "MYSTERY"

Flowers are larger and more attractive than ordinary Gardenia Florida, and excellent grower.

2-inch pots	1.25	10.00
3-inch pots	2.00	15.00
8-12 inch. C. T.	1.50	10.00
12-18 inch, C. T.	2.00	15.00
18-24 inch, B&B, field grown specimen ...	1.00	7.50
2-3 feet, B&B, field grown specimen ...	1.25	10.00

GARDENIA RADICAN

Dwarf growing Cape Jasmine with small size variegated leaves and waxy-white, fragrant flowers.

4-6 inch, C. T.60	5.00
6-8 inch, C. T.75	6.00
8-12 inch, C. T.	1.00	8.00
12-inch spread, B&B65	5.00

GARDENIA VEITCHII

Winter-blooming Gardenia, used extensively by florists. Our strain bloom almost continually. Cannot stand but a few degrees of frost. We offer well pinched pot bound healthy plants only.

	Each	10	100
4-6 inch, 2-inch pot		1.00	7.50
6-8 inch, 2½-inch pot		1.25	9.00
8-10 inch, 3-inch pot		1.75	14.00
12-18 inch, bushy, with numerous buds, B&B	1.00	8.50	

Strong rooted cuttings, \$4.00 per 100; \$30.00 per 1000

ILEX CASSINA (Dahoon Holly)

Similar to following kind with the exception of wider leaves, of paler color. These are well berried plants at following prices.

	Each	10	100
8-12 inch, C. T.		1.00	8.00
2-3 feet, B&B	1.00	8.50	
3-4 feet, B&B	1.25	10.00	

ILEX CASSINA ANGUSTIFOLIA

Leaves are narrow and two to three inches long. Bear deep red berries very young and most profusely. Having smaller leaves than above kind, berries show up better and one of very best berry bearing plants.

	Each	10	100
6-8 inch, C. T.80	6.00
8-12 inch, C. T.		1.00	8.00
18-24 inch, B&B, with berries	1.00	8.50	
2-3 feet, B&B, with berries..	1.25	10.00	
3-4 feet, B&B, with berries..	1.50	12.50	
4-5 feet, B&B, with berries..	1.75	15.00	

ILEX CASSINA MYRTIFOLIA

Similar to Ilex C. Angustifolia, but with narrower leaves, and profuse berry bloomer.

8-12 inch, C. T.	1.00	--	8.00
12-18 inch, C. T.	1.25		10.00

ILEX CORNUTA BUFORDI

ILEX CORNUTA FEMINA

Showiest holly in the South and perfectly at home from Gulf Coast to New Jersey. Cuttings from bearing plants with highly glossy leaves. Some plants have regular holly-shaped leaves with several spines, but some have entire shiny leaves, without any spine, except one and are known by some nurserymen as "Bufordi". We can offer both kinds at same price.

	Each	10	100
6-8 inch, C. T.		1.00	8.00
8-12 inch. C. T.		1.25	10.00
8-12 inch, 2½-inch pot		1.50	12.00
2-3 feet, B&B	1.75	15.00	
3-4 feet, B&B	2.50	20.00	
4-5 feet, B&B	3.00	25.00	
5-6 feet, B&B	3.50	30.00	

ILEX CRENATA

Dwarf, slow growing holly of extreme hardiness.

6-8 inch, S. T.75	6.00
8-12 inch, S. T.	1.00	8.00

ILEX CRENATA BULLATA

An excellent new variety with leaves of high gloss and convex in center. Slow and dwarf and ideally suited for rock and Japanese gardens. Supply is very limited.

6-8 inch, C. T.80	6.00
8-12 inch, C. T.	1.00	8.00
12-18 inch, B&B, clipped75	6.00
18-24 inch, B&B, clipped ...	1.00	7.50
2-3 feet, B&B, clipped	1.25	10.00

ILEX CRENATA MYCROPYLLA

Very small leaved type of Crenata used extensively in East.

4-6 inch, C. T.75	6.00
6-8 inch, C. T.	1.00	8.00
8-12 inch, C. T.	1.20	10.00
12-18 inch, B&B, clipped75	6.00
18-24 inch, B&B, clipped ...	1.00	7.50

ILEX CRENATA ROTUNDIFOLIA

Very hardy holly with black berries and round box-wood-like leaves. Very desirable.

6-8 inch, C. T.75	6.00
8-12 inch, C. T.	1.00	8.00
12-18 inch, B&B65	5.00
18-24 inch, B&B	1.00	7.50

ILEX OPACA FEMINA (American Holly)

Seedling holly cannot be depended upon bearing because there are both male and female plants, but we propagate from cuttings of best bearing female plants.

	Each	10	100
6-8 inch, C. T.		1.00	8.00
8-12 inch, C. T.		1.20	10.00
12-18 inch, C. T.		1.50	12.00

ILEX VOMITORIA FEMINA (Yaupon)

Cuttings were taken from heavy bearing plants to insure best bearing.

8-12 inch, C. T.		1.25	10.00
12-18 inch, C. T.		1.75	15.00
2-3 feet, B&B	1.50	12.50	
3-4 feet, B&B	1.75	15.00	

ILLICIUM ANISATUM (Anise Tree)

Beautiful upright evergreen with clean broad leaves which are highly scented when bruised. Very hardy.

6-8 inch, C. T.		1.00	8.00
8-12 inch, C. T.		1.25	10.00

JASIMINUM FLORIDUM

Arched branches are clothed with dark green leaves and yellow flowers good part of Summer. Hardy South of Washington.

JASIMINUM PRIMULINUM (Primrose Jasmine)

Very graceful, fast growing, semi-erect evergreen, with yellow flowers.

Prices of above two kinds:—

6-8 inch, C. T.60	5.00
8-12 inch, C. T.85	7.00
12-18 inch, C. T.		1.00	9.00
18-24 inch, B&B50	3.50	
2-3 feet, B&B75	5.00	

LAURUCERASUS CAROLINANA (Cherry Laurel)

6-8 inch, S.40	3.00
8-12 inch, S.60	5.00
8-12 inch, S. T.		1.00	8.00
12-18 inch, S. T.		1.25	10.00
2-3 feet, B&B75	5.00	
3-4 feet, B&B	1.00	7.50	
4-5 feet, B&B	1.50	12.50	
5-6 feet, B&B	1.75	15.00	

LAURUS OFFICINALE (English Laurel)

Medium size shrub, doing well from Gulf Coast to Virginia. Dark green large leaves.

6-8 inch, C. T.75	6.00
8-12 inch, C. T.		1.00	8.00
12-18 inch, C. T.		1.25	10.00
18-24 inch, B&B75	6.00	
2-3 feet, B&B	1.00	7.50	

LIGUSTRUM CORIACEUM

Very dwarf ligustrum with crinkled, thick dark foliage making it suitable for rock gardens.

6-8 inch, C. T.		1.00	8.00
8-12 inch, C. T.		1.25	10.00
12-18 inch, C. T.		1.50	12.00
12-18 inch, B&B75	6.00	
18-24 inch, B&B	1.00	8.50	
2-3 feet, B&B	1.50	12.50	

LIGUSTRUM JAPONICUM

Fast growing, large size shrub suitable for back ground and border, etc.

	Each	10	100
6-8 inch, S.35	2.00
8-12 inch, S.50	3.00
12-18 inch, S.75	5.00
2-3 feet, B&B75	6.00	
3-4 feet, B&B90	7.50	
4-5 feet, B&B	1.25	10.00	

LIGUSTRUM CILIATUM VARIEGATUM

Spreading shrub with round variegated leaves.

LIGUSTRUM LUCIDUM COMPACTUM

Well known Wax Privet so extensively planted in last few years. There is hardly any other broad-leaved evergreen received greater attention by public of recent years, but use can still be increased. Our Wax Privets are well known to have exceptionally good color and texture of foliage and compactness of bush. Our field grown plants are well pinched and shapely.

LIGUSTRUM LUCIDUM PYRAMIDALIS (Upright Privet)

There are several types of Pyramidal form of Wax Privet, but ours have darkest green foliage of roundish form and very thick and while decidedly upright in form, yet quite compact.

LIGUSTRUM LUCIDUM REPENDA (Crinkle Privet)

Rather upright and spreading, with waxy crinkled narrow leaves and very graceful.

Prices of above four Ligustrums:—

4-6 inch, strong			
rooted cuttings40	2.50
6-8 inch, C. T.60	5.00
8-12 inch, C. T.85	7.00
12-18 inch, C. T. Beds		1.00	9.00
12-18 inch, C. TT. Field.....		1.75	15.00
18-24 inch, C. TT. Field.....		2.50	17.50
18-24 inch, B&B50	4.00	
2-3 feet, B&B65	5.00	
3-4 feet, B&B	1.00	8.50	

LIGUSTRUM QUIHOI

Evergreen summer blooming Ligustrum of upright form used widely for landscape use. This Ligustrum is immune from the attack of nemetodo that root stock are used for grafting other varieties of Ligustrum, especially in Florida where soil is sandy.

2-3 feet, branched	1.25	10.00
3-4 feet, branched	1.50	12.00

LIGUSTRUM QUIHOI PENDULUM (Weeping Everblooming Chinese Privet)

Will make ideal ground cover plants, especially on banks. Very hardy and little known.

8-12 inch, C. T.	1.00	8.00
12-18 inch, C. T.	1.50	12.00
2-3 feet, B&B	1.00	8.00

MAGNOLIA FUSCATA (Banana Shrub)

Noted by yellowish-white flowers of banana-like fragrance. Very attractive shrub.

6-8 inch, C. T.	1.00	8.00
8-12 inch, C. T.	1.20	10.00
18-24 inch, B&B	1.00	8.50
2-3 feet, B&B	1.25	10.00

MAGNOLIA GLAUCA

Well known, native "White Bay" of Southern United States. Bloom young and hardy in central U. S.

	Each	10	100
6-8 inch, S.80	6.00
8-12 inch, S.		1.00	8.00
12-18 inch, S.		1.25	10.00

MAGNOLIA GRANDIFLORA (Bull Bay)

Our specimen plants were transplanted two and three times.

6-8 inch, S.80	6.00
8-12 inch, S.		1.00	8.00
12-18 inch, S.		1.25	10.00
2-3 feet, B&B90	7.50	
3-4 feet, B&B	1.25	10.00	
4-5 feet, B&B	1.75	15.00	
5-7 feet, B&B	2.50	20.00	

MAGNOLIA SOULANGEANA (See page 19)

MAHONIA BEALEI (M. Japonica)

Thick green foliage, spread out in Nandina fashion. Cluster of yellow flowers in winter is followed by attractive purple berries. Does best in partial shade.

2-4 inch, S.60	5.00
4-6 inch, S.75	6.00
6-8 inch, S. T.		1.00	8.00

MALPIGHIA GLABRA (Barbadoe Cherry)

Small Crape Myrtle-like pink flowers are followed by bright red berries, often blooming and bearing at the same time. Rather tender, but when killed back to ground they will shoot up in Spring and bloom in same Summer.

3-inch pots	2.50	20.00
-------------------	------	-------

NANDINA DOMESTICA

Well known red berry bearing plants. Our B&B plants are with several canes and with berries early in season.

4-6 inch, S. T.75	6.00
6-8 inch, S. T.85	7.00
8-12 inch, S. T.		1.20	10.00
18-24 inch, B&B60	5.00	
2-3 feet, B&B	1.00	8.00	
3-4 feet, B&B	1.50	12.50	
4-5 feet, B&B	1.75	15.00	

OSMANTHUS AMERICANA

Fast growing shrub with three-inch long leaves with fragrant white flowers in Fall. Can stand zero weather.

OSMANTHUS FORTUNI (Tea Olive)

Hardy south of Washington, D. C. Beautiful holly-like leaves and fragrant white flowers in late Fall. One of best broad-leaved evergreens.

OSMANTHUS FRAGRANCE (Sweet Olive)

Similar to above two kinds, but blooms almost continually all winter and very fragrant. We have this year splendid lots of both lining out and specimen plants to offer.

Prices of all Osmanthus:—

	Each	10	100
6-8 inch, C. T.		1.00	8.00
8-12 inch, C. T.		1.20	10.00
12-18 inch, C. T.		1.50	12.00
18-24 inch, B&B75	5.00	
2-3 feet, B&B	1.00	8.50	
3-4 feet, B&B	1.50	12.50	

OSMANTHUS FRAGRANCE AUREA (Yellow Flowering Sweet Olive)

Similar to Sweet Olive, with orange colored flowers which are highly scented and more profuse bloomers than Sweet Olive. Bloom only once in Fall, however. Very new and rare plants.

	Each	10	100
6-8 inch, C. T.		1.25	10.00
8-12 inch, C. T.		1.50	12.00
3-4 feet, B&B	2.00	17.50	
4-5 feet, B&B	2.50	20.00	

PHOTINIA GLABRA

New growth of this plant is vivid red and very attractive among other evergreens during growing season. Should be clipped often to induce more new growth.

6-8 inch, C. T.75	6.00
8-12 inch, C. T.		1.00	8.00
12-18 inch, C. T.		1.25	10.00
2-3 feet, B&B	1.00	7.50	
3-4 feet, B&B	1.25	10.00	

PHOTINIA SERRULATA (Low Photinia)

Large shrub with dark green good size serrulated leaves, which will often turn red in Fall. Cluster of white flowers followed by red berries.

2-3 feet, B&B	1.25	10.00
3-4 feet, B&B	1.50	12.50

PITTOSPORUM TOBIRA

6-8 inch, C. T.60	5.00
8-12 inch, C. T.85	7.00
12-18 inch, C. T.		1.00	8.00
18-24 inch, B&B	1.00	8.50	
2-3 feet, B&B	1.25	10.00	

PYRACANTHA LALANDI

Winter berried plants are getting more popular all the time and specially Pyracanthas. Lalandi is very hardy and safe south of Philadelphia. Orange colored berries after August.

PYRACANTHA FORMOSANA

By far the showiest of all Pyracantha, but is not very hardy, and unsafe north of Montgomery. Largest clusters of bright red berries.

PYRACANTHA FORMOSANA

PYRACANTHA KANSUENSIS

Berries are small, but very heavy bearer of deep red berries which cover the entire plant.

PYRACANTHA YUNNANENSIS

Spreading type with coral-red berries and quite hardy. Very popular.

Prices of all Pyracanthas:—

	Each	10	100
6-8 inch, C. T.75	6.00
8-12 inch, C. T.		1.00	8.00
12-18 inch, C. T.		1.20	10.00
2-3 feet, B&B	1.00	8.50	
3-4 feet, B&B	1.50	12.50	

ROSA ROULETTI

Very dwarf form of Rose, which is evergreen in lower South, with small rose-pink flowers almost continually. Quite a novelty as pot or rock garden plants. All our plants are with flower buds.

2-inch pot	1.00	8.00
2½-inch pot	1.25	10.00
3-inch pot	1.75	15.00

SERISSA FOETIDA VARIEGATA

Dwarf spreading shrub with small variegated leaves and Abelia-like flowers most of Summer. Make excellent hedge.

8-12 inch, C. T.75	6.00
12-18 inch, C. T.	1.00	8.00

STRANVAESIA DAVIDIANA

Very hardy evergreen, with large cluster of red berries. Old leaves also turn red.

6-8 inch, C. T.	1.00	8.00
8-12 inch, C. T.	1.20	10.00
2-3 feet, B&B	1.25	10.00
3-4 feet, B&B	1.50	12.50

VIBURNUM MACROPHYLLUM

Small size tree with large size very glossy leaves and cluster of white flowers.

6-8 inch, C. T.85	7.00
8-12 inch, C. T.	1.10	9.00
18-24 inch, B&B	1.00	8.50
2-3 feet, B&B	1.25	10.00

VIBURNUM ODORATISSIMUM

Similar to above with more rounded leaves of lighter color not glossy. Looks much like English Laurel and fast grower.

6-8 inch, C. T.75	6.00
8-12 inch, C. T.85	7.00
12-18 inch, C. T.	1.25	10.00
18-24 inch, B&B50	4.00
2-3 feet, B&B75	6.00
3-4 feet, B&B	1.00	8.50
4-5 feet, B&B	1.50	12.50

VIBURNUM SUSPENSUM

Dwarf growing, compact bush, with clusters of suspended white flowers in late Fall.

6-8 inch, C. T.80	6.00
8-12 inch, C. T.	1.00	8.00

VIBURNUM TINUS (Laurestinus)

Compact growing shrub, with small shiny leaves. Clusters of pinkish-white flowers at terminals of shoots during Winter months. One of most desirable plants.

	Each	10	100
6-8 inch, C. T.75	6.00
8-12 inch, C. T.		1.00	8.00
18-24 inch, B&B75	6.00	
2-3 feet, B&B	1.00	8.50	

CONIFERS

Legend: — S—Seedling, C—Cutting, T—Transplanted, B&B—Balled and burlapped.

We have many varieties not listed here in smaller quantity, but will be pleased to quote on them.

CEDRUS DEODARA

6-8 inch, S.75	6.00
8-12 inch, S. T.		1.00	8.00
12-18 inch, S. T.		1.25	10.00
18-24 inch, B&B60	5.00	
3-4 feet, B&B	1.25	10.00	
4-5 feet, B&B	1.50	12.50	
5-6 feet, B&B	2.00	17.50	

CUNNINGHAMIA LANCEOLATA (Chinese Fir)

4-6 inch, S50	4.00
6-8 inch, S.75	6.00
8-12 inch, T. S.		1.25	10.00
12-18 inch, bushy, T. S.		1.75	15.00
2-3 feet, B&B85	7.50	
3-4 feet, B&B	1.25	10.00	

JUNIPERUS CHINENSIS ALBO VARIEGATA

Slow growing, conical shaped Juniper with much creamy white variegation making very attractive subject.

4-6 inch, C. T.		1.20	10.00
6-8 inch, C. T.		1.50	12.00
8-12 inch, C. T.		1.75	15.00
18-24 inch, B&B	1.00	8.50	
2-3 feet, B&B	1.50	12.50	

JUNIPERUS CHINENSIS Densa GLAUCA

Similar to above, but with solid deep blue hue which will not turn brown in coldest weather. More silvery-blue than Silver Red Cedar, and much more compact.

Prices are same as above.

JUNIPERUS C. FEMINA (J. Sylvestris)

One of best conifers in the South, with light green leaves of both scale-like and smooth types. Can withstand city conditions and very hardy.

4-6 inch, C. T.		1.00	8.00
6-8 inch, C. T.		1.20	10.00
8-12 inch, C. T.		1.75	15.00
2-3 feet, B&B	1.25	10.00	
3-4 feet, B&B	1.50	12.50	
4-5 feet, B&B	1.75	15.00	

JUNIPERUS C. JAPONICA PROCUMBENS (Creeping Juniper)

Very hardy, prostrate Juniper, with scale-like leaves of blue-green.

	Each	10	100
4-6 inch spread, C. T.80	6.00
6-8 inch spread, C. T.		1.00	8.00
2-3 feet, B&B	1.25	10.00	
3-4 feet, B&B	1.50	12.00	

JUNIPERUS CHINENSIS PFITZERIANA

Our specimen Pfitzers are very shapely; spreading to four directions.

4-6 inch spread, C. T.		1.00	8.00
6-8 inch spread, C. T.		1.25	10.00
8-12 inch spread, C. T.		1.50	12.00
12-18 inch spread, B&B.....	.75	6.00	
18-24 inch spread, B&B.....	1.00	8.50	
2-3 feet spread, B&B	1.50	12.50	

JUNIPERUS C. SARGENTI

One of best creeping Junipers of great hardiness.
Prices are same as Japanese Creeping Juniper.

JUNIPERUS COMMUNIS

Column type English Juniper, of bluish hue, withstanding heat of Southern sun and hardy in extreme North.

6-8 inch, C. T.80	6.00
8-12 inch, C. T.		1.00	8.00
2-3 feet, B&B75	6.00	
3-4 feet, B&B	1.00	8.00	

JUNIPERUS C. DEPRESSA PLUMOSA (Andorra Juniper)

Light green summer foliage will turn into deepest plum color in Winter. Decidedly prostrate growth.

Prices are same as Japanese Creeping Juniper.

JUNIPERUS CONFERTA (Shore Juniper)

Spreading Juniper, with pea-green foliage, will not turn brown in Winter and will do well on sandy soil or clay.

Prices are same as above.

JUNIPERUS COMMUNIS DEPRESSA VASE SHAPED.

Semi-erect Juniper of Vase shape.

6-8 inch, C. T.75	6.00
8-12 inch, C. T.		1.00	8.00

JUNIPERUS EXCELSA STRICTA (Spiny Greek)

Symmetrical grower of conical outline.

4-6 inch, C. T.75	6.00
6-8 inch, C. T.		1.00	8.00
18-24 inch, B&B60	5.00	
2-3 feet, B&B75	6.00	
3-4 feet, B&B	1.00	8.50	

JUNIPERUS JAPONICA OBLONGA

Semi-erect dwarf Juniper of unique shape, with fine smooth leaves.

6-8 inch, C. T.		1.00	8.00
8-12 inch, C. T.		1.20	10.00
2-3 feet, B&B	1.00	8.50	

JUNIPERUS SABINA

Semi-spreading Juniper of rather formal shape of slow growth.

6-8 inch, C. T.		1.00	8.00
8-12 inch, C. T.		1.25	10.00
3-4 feet, B&B	1.50	12.50	
4-5 feet, B&B	1.75	15.00	

JUNIPERUS SABINA VON EHROH

Similar to Pfitzer Juniper, but a little more upright and fast grower. Excellent, newer addition.

Prices are same as above.

PODOCARPUS SINENSIS (Japanese Yew)

One of largest leaved conifers with two to three inch long and half inch wide leaves, looks almost like broad-leaved evergreen. Can be pruned to any desired shape and will do well either sun or dark shade.

	Each	10	100
4-6 inch, S. T.50	4.00
6-8 inch, S. T.75	6.00
8-12 inch, S. T.		1.00	8.00

RETINOSPORA ERICOIDES

Fast and upright grower with feathery-bluish foliage. Can be pruned into Royal Italian shape and our specimen sizes are sheared plants.

6-8 inch, C. T.60	5.00
8-12 inch, C. T.80	6.00
12-18 inch, C. T.90	7.00
3-4 feet, B&B75	6.00	
4-5 feet, B&B	1.00	8.50	

RETINOSPORA PISIFERA FILIFERA

Thread-like, green foliage presents unique appearance and does not burn out like most other Retinosporas.

6-8 inch, C. T.85	7.00
----------------------	--	-----	------

RETINOSPORA P. FILIFERA AUREA

The above form of very yellow color, which will not turn green all year around.

6-8 inch, C. T.		1.00	8.00
----------------------	--	------	------

RETINOSPORA PLUMOSA AUREA

Very feathery growth, tipped with golden color during growing season.

RETINOSPORA SQUAROSSA VEITCHII

Rapid grower, with silvery foliage and very handsome. Shear well.

Prices of above two Retinosporas:—

6-8 inch, C. T.75	6.00
----------------------	--	-----	------

THUYA ORIENTALIS AUREA CONSPICUA

Upright and columnar, with golden-yellow foliage. Our B&B plants are grafted plants.

6-8 inch, C. T.		1.00	8.00
8-12 inch, C. T.		1.20	10.00
2-3 feet, B&B	1.00	8.50	
3-4 feet, B&B	1.25	10.00	
4-5 feet, B&B	1.50	12.50	

THUYA O. AUREA NANA (Berckman's Golden)

Well known dwarf Golden Arborvitae. Our lining out size plants were rooted in greenhouses and transplanted in open beds under full sun and are compact, hardy plants.

6-8 inch, C. T.		1.25	10.00
8-12 inch, C. T.		1.50	12.00
12-18 inch, C. T.		2.00	17.50
18-24 inch, B&B75	6.00	
2-3 feet, B&B	1.00	8.50	

THUYA O. BAKERI

Upright, fast grower. Well hardened bed and field grown plants.

	Each	10	100
6-8 inch, C. T.75	6.00
8-12 inch, C. T.		1.00	8.00
12-18 inch, C. T.		1.25	10.00
2-3 feet, B&B60	5.00	
3-4 feet, B&B85	7.50	
4-5 feet, B&B	1.25	10.00	

THUYA O. BONITA

Compact and round. Will retain light green color all year round.

6-8 inch, C. T.75	6.00
8-12 inch, C. T.		1.00	8.00
18-24 inch, B&B60	5.00	
2-3 feet, B&B90	7.50	

DECIDUOUS PLANTS

CYDONIA JAPONICA (Japanese Quince)

12-18 inch, T.	1.50	12.50
18-24 inch, T.	2.00	17.50

GINKGO BILOBA (Maiden Hair Tree)

6-8 inch, 3-year seedlings....	1.00	7.00
8-12 inch, 3-year seedlings..	1.25	9.00

LAGERSTROMIA INDICA (Crape Myrtle)

Watermelon, Red and Pink.

1-2 feet	1.50	12.00
2-3 feet	2.00	17.50
3-4 feet	3.00	25.00

LONICERA FRAGRANTISSIMA (Winter Honey-suckle)

Fragrant creamy-white flowers in mid-season. Strong compact upright grower.

12-18 inch, C. T.	1.50	10.00
18-24 inch, C. T.	2.00	15.00

MAGNOLIAS, (See pages 18-19-20)

PRUNUS GRADULOSA (Double-flowering Almond)

In early Spring, before leaves appear, the entire bush is covered with small beautiful double pink flowers.

12-18 inch, C. T.	1.75	15.00
18-24 inch, C. T.	2.50	20.00
2-3 feet, bushy	3.50	30.00

ROSA ROULETTI (See Page 27)

SPIREA ANTHONY WATERER

12-18 inch, very bushy, TT..	1.75	12.50
18-24 inch, very bushy, TT..	2.25	17.50

SPIREA THUMBERGII

	Each	10	100
12-18 inch, Field		1.25	10.00
18-24 inch, Field		1.75	15.00

WISTERIA MULTIJUGA ROSEA (Pink Wisteria)

2-year, Grafted, Field	6.00	50.00
3-year, Grafted, Field	8.50	75.00

PALMS, VINES, BULBS, ETC.

AMARYLLIS VITATA

Hybrid of all sorts, ranging in color from white to deepest red and intermediate colors. Very large flowers with wide petals.

	Each	10	100
Three-year old seedlings....		1.00	7.00
4-5 year old blooming bulbs		3.00	25.00

ASPIDISTRA LURIDA

Price per good leaves60	4.00
-----------------------------	-----	------

BAMBUSA ARGENTEA

A clump bamboo with small green canes with green leaves. Very nice for screen.

Good size clumps, B&B	3.00	25.00
-----------------------------	------	-------

BAMBUSA DISTICHA

Smaller than above with ultimate heights of 12 feet, with very fine leaves of highly ornamental value.

Good size clumps, B&B	3.00	25.00
-----------------------------	------	-------

CHAMAEROPS EXCELLSA PALM (Wind-Mill Palm)

Very hardy, fan-shaped leaf palms with slender trunk, well adapted for street plantings.

Specimen size from field:

18-24 inch, B&B	2.00	15.00
2-3 feet, B&B	3.00	25.00

COCOS AUSTRALIS PALMS

Recurved leaves are glaucous and very graceful. This is rather a slow grower, but never gets out of bounds and is ideal for lawn specimens. Can stand much more cold than Washingtonia and Phoenix palms.

8-12 inch, 2-year S.75	6.00
2-3 feet, B&B	2.25	20.00
3-4 feet, B&B	3.00	25.00
4-5 feet, B&B	4.00	35.00

CORTADERIA ARGENTEA (Pampas Grass)

We offer both Pink and White kinds.

	Each	10	100
Good size clump		3.50	25.00
Good size division		2.00	15.00

HEDERA HELIX (English Ivy)

8-12 inch, 2-inch pot85	7.00
12-18 inch, 2½-inch pot	1.25	9.00

HEMERCOALLIS (Day Lily)

Apricot, low growing early bloomer.

Aurantica, deep reddish-orange.

Florham, large, rich golden yellow.

Fulva, large orange-yellow.

Gold Dust, golden-yellow.

Kwanso, double flowering kind of Fulva.

Minor, golden-yellow. Early.

Medium division	1.00	8.50
-----------------------	------	------

LIRIOPE

Similar to Ophiopogon Japonicum, but with broader and longer leaves of about 12 inches and larger spikes of blue flowers. Excellent for edging and porch plants

Medium clumps	2.00	15.00
---------------------	------	-------

MILLETIA JAPONICA (Formosa Wisteria)

Vines with compound evergreen leaves and deep purple flowers produced freely during Summer months, very much like ordinary Wisteria. Only offered by two or three firms in this country yet.

6-8 inch, C. T.	1.50	10.00
8-12 inch, C. T.	2.00	12.00
18-24 inch, C. TT., Field	3.00	20.00

OPHIOPOGAN JAPONICUM (Dragon's Beard)

A very low, grass-like evergreen, with spikes of purple flowers, doing well either in dark shade or in full sun. Very valuable as border plants.

Small division	2.00
Large division	3.00

OPHIOPOGAN JABURAN VARIEGATUS

A little larger type than above, with leaves beautifully variegated with creamy-white. Pretty spikes of blue flowers in July and August make these very attractive as out of door or potted plants.

Medium clumps	3.00	25.00
---------------------	------	-------

PHILOSTOCHIS AUREA (Giant Japanese Bamboo)

Large growing, hardy bamboo, well adapted for Southern United States.

Underground canes	1.50	10.00
-------------------------	------	-------

WISTERIA, (See page 35)

YELLOW JASMINE (Gelsemium Sempervirens)

Slender vines with shiny evergreen leaves, and fragrant yellow flowers early in spring. Hardy from central Texas and south.

6-8 inch, C. T.75	6.00
8-12 inch, C. T.	1.00	8.00
